## DETAILED ACTION

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Great Britain on January 29, 1999. It is noted, however, that applicant has not filed a certified copy of the British application as required by 35 U.S.C. 119(b).
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Salomon. Solomon discloses first and second guides (11, 13) and sensor means including a face engageable by a corner of a mail piece (see Figure 5).
4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick Mackey whose telephone number is (703) 308-0630.
